

Canada's leading **INSTRUMENTATION COMPANY**

Call BHD Instrumentation as your direct, reliable resource to purchase, rent or service test equipment, fixed instrumentation, and innovative solutions.

BHD Instrumentation is proud of its track record of success for servicing the oil and gas industry. With 25 years of experience in the industry, the company stays connected to the community while discovering new ways to improve products and customer service. We offer diverse products covering all industries including natural resource, power, communications, education, municipal and HVAC market space.

The company designs instrumentation products and exceeds expectations of top tier vendors. The BHD Instrumentation team are experienced subject matter experts in sourcing any product to meet your business needs in a cost efficient and timely manner.

Our highly trained factory sales personnel will provide industry leading pre-and post-sales support to find the right products for your application. Our sales personnel dedicate the time to train customers on how to use tools for everyday use.

TEST EQUIPMENT

The Right Tool at the Right Price, Delivered at the Right Time.

The search for high-quality test and measurement equipment can be overwhelming. BHD uses 25 years of technical expertise to review solutions from all industries and top brands at no charge. When you work with BHD, you can confidently move forward with a job with the right tools at a competitive price. Our team of experts is here to help.

RELIABILITY & CONTROLS

BHD has a wide selection of reliable and control solutions for rotating, reciprocating and turbo machinery. Whether it is a vibration sensor, a rack based distributed condition, monitoring or field services, we will help you increase asset reliability to enhance operational efficiency.

We provide the right solution, the right service at the right price, every time.

TECHNOLOGY

Our team will help you move computing to meet demanding industrial requirements with a complete basket of ruggedized industrial computer and DC power supply solutions that can include a one-off custom solution or a standard stock item.

BHD takes into consideration your environmental requirements when designing ruggedized products that include tablets, panel and box pc's, rack mounted servers, single board computers and displays.

PROCESS INSTRUMENTATION

We strategize solutions for all process measurement and control challenges. Call us when you need support with a visual indication of the liquid level in a forty-foot tank. An alignment for a monitor belt on a gravel conveyor or when a hammer union is needed to measure down hole pressure for well servicing operations.
